Exam Series: Purchasing and Storeskeeping

Subjects of examination: A written test designed to evaluate knowledge, skills and /or abilities in the following areas:

1. Arithmetic computation with calculator

These questions test for the ability to use a calculator to do basic computations. Questions will involve addition, subtraction, multiplication and division. You may also be asked to calculate averages, to use percents, and to round an answer to the nearest whole number. You should bring with you a hand-held battery- or solar-powered calculator for use on this test. You will not be permitted to use the calculator function of your cell phone.

2. Keeping simple inventory records

These questions test for the ability to follow instructions in keeping simple inventory records of different materials received and distributed from a central location. The ability to add, subtract, multiply, and divide will be required. You may have to compute total costs from quantities (number of units) and cost or price per unit. Knowledge of specific record keeping systems and techniques will not be needed.

3. Name and number checking

These questions test for the ability to distinguish between sets of words, letters, and/or numbers that are almost exactly alike. Material is usually presented in two or three columns, and you will have to determine how the entry in the first column compares with the entry in the second column and possibly the third. You will be instructed to mark your answers according to a designated code provided in the directions.

The New York State Department of Civil Service has not prepared a test guide for this examination. However, candidates may find information in the publication "How to take a written test" helpful in preparing for this test. This publication is available on line at: www.cs.ny.gov/testing/localtestguides.cfm
